- Getting Started: Why, What & How about Terraform?

- The problem of provisioning everything manually
- The concept of Infrastructure as a Code (IaC)
- Where terraform comes in?
- Use cases of Terraform
- Terraform Vs Ansible
- Terraform Vs Chef
- Terraform Vs Puppet

Terraform Beginners Track

Installing Terraform

- MacOS
- Linux
- Windows

From Terraform INIT To APPLY

- Terraform providers
- Terraform resources
- Variable Resources
- Output Resources
- Terraform CLI
- Init-plan-apply !

Setting up Cloud Account

AWS

- Deploy your AWS EKS cluster with Terraform
- Setting up AWS account credentials
- Launch an EC2 instance
- Create a S3 bucket for storage
- Launch an RDS with mysql engine
- Deploy a Single Web Server
- Deploy a Configurable Web Server
- Deploy Cluster of Web Servers
- Deploy a Load Balancer
- Create a VPC
- Deploy a subnet in VPC with security groups/firewall rules
